

Cleaning Instruction

Parisi toilet seats are designed and engineered so that if they are installed and maintained correctly, they will provide many years of reliable use.

Regular cleaning should be undertaken using a mild soap solution to clean the seat.

Please take care to ensure that the seat and hinges are not left damp. Dry off any residual water or cleaning agent with a soft cloth.

When cleaning the toilet bowl, make sure that the seat and cover open and in an upright position until all cleaning agents have been rinsed off or wiped dry.

Avoid contact of the seat and hinges with abrasive, corrosive or bleach-based cleaners, as these may cause damage to the seat or lead to degradation of the surface finish and hinge mechanism.
