CARE PLUS BASIN MIXER WITH CARE HANDLE H/C

The Care Plus Mixer range is ideal for commercial care requirements, with the versatility of adaptable standard and extended lever care handles, in hot/cold or warm/cold combinations; and increased indicator size across all handle options. The range features laminar flow as standard for added infection control against legionella and bacteria in hospitals and aged care facilities.

- Available in Lead Free brass*. The inclusion of F in the code and LF in the product description indicates the product is certified Lead Free - 35mm adjustable cartridge for added temperature and flow control - Silicone aerator prevents calcium and limescale build-up for easy maintenance - SoftPEX hoses provide supreme durability, longer life, anti bacterial properties and free from impurities - Large colour indicators for easier identification, ideal for aged care applications - Laminar flow as standard that reduces the risk of legionella contamination - Includes extended Care lever handle (H/C) for care facilities or those with restricted movement - Can be installed to comply to AS1428.1 Design for Access and Mobility requirements - Available with Standard or Care handle H/C (red and blue) indicators - Standard or Care handle with W/C (yellow and blue) indicators available as adaptable options - Chrome finish - *<0.25% lead as per Lead Free Watermark certification
